EDUCATION

GLA University, Mathura <i>Bachelor of Technology in Computer Science</i>	2023 - 2027
KCM Public School, Haryana <i>Intermediate</i>	2022 - 2023

EXPERIENCE

Summer Intern, Full Stack Developer <i>W3Grads</i>	Jun 2025 - Jul 2025 <i>Remote</i>
- Completed certified Full Stack Development program in MERN stack (MongoDB, Express.js, React.js, Node.js) with GenAI integration. - Built and debugged frontend/backend modules; designed and tested RESTful APIs using Postman, following Agile practices and Git version control.	

PROJECTS

InternEase: AI-Powered Student Productivity Platform GitHub Live <i>React.js, Node.js, Express.js, MongoDB, Gemini API, REST API, Git</i>	Nov 2025 - Jun 2026
- Developed a full-stack MERN platform for students to discover internships, certifications, and technical events via a centralized dashboard, with RESTful APIs and MongoDB for CRUD operations. - Integrated Google Gemini API for personalized recommendations; deployed via Git/GitHub and Render using an Agile workflow.	
Saarthi: AI-Integrated Patient and Doctor Platform GitHub Live <i>MongoDB, Express.js, React.js, Node.js, GROQ API, Postman, GSAP, REST API</i>	Mar 2026 - May 2026
- Built a full-stack MERN healthcare platform enabling real-time doctor-patient interaction, with RESTful APIs covering the complete appointment lifecycle, tested via Postman. - Integrated GROQ API for an AI-assisted patient support chatbot and used GSAP for interactive, responsive UI animations.	

TECHNICAL SKILLS

Languages: C, Java, Python, JavaScript, SQL
Web Technologies: HTML, CSS, EJS, React.js, Node.js, Express.js, MongoDB, REST API, MERN Stack
Libraries/Tools: Pandas, NumPy, Matplotlib, GSAP, Git, GitHub, Postman, VS Code, IntelliJ IDEA
Practices: SDLC, Agile, OOP, Unit Testing, Debugging, API Integration, Version Control
Core CS: DSA, DBMS, Computer Networks, Operating Systems, System Design, Software Engineering

CERTIFICATIONS/ACHIEVEMENTS

- Master DSA in Java** - Coding Blocks
- Node.js, MongoDB & OpenAI API** - Udemy
- Solved 500+ DSA problems in Java (LeetCode/CodeChef) and 500+ in Python (HyperSkill)
- Hackathons: SIH, DecoCX, CodeClash 2025 & 2026, Flipkart Grid 6.0 | Mentor, Apertre 2.0 | Member, GDG Innovation Program
- Co-Author, IEEE Publication** - Hybrid DNA Computing and ML Classifier for Scalable Financial Fraud Detection
